MICRO BIRD
COMMERCIAL

Micro Bird Commercial, a division of Micro Bird inc., designs and manufactures a complete line of commercial buses for up to 25 passengers. Since 1966, Micro Bird inc. has continued to set industry standards with its innovative design, quality and safety; creating value for its customers. Our buses are purpose built for tours, assisted living, public transit, shuttle markets and many more.

FEATURES AND **BENEFITS**

| BUILT TO LAST STRUCTURE

- One-piece galvanized steel roof bows enhance safety and roll over protection
- Aluminum side body panels for longevity and low repair costs
- Reinforced step well for better stability

| ENHANCED PASSENGER SAFETY

- Heavy-gauge steel side impact barriers that incorporate the seat rail into the design for extra strength
- Reinforced rear door and buffer zone for rear impact

| REDUCED OPERATING AND MAINTENANCE COSTS

- Gravel shield for added body protection and increased vehicle longevity
- Standard LED exterior lights

Double action energy absorbing body mounting blocks:

- Absorb road vibration
- Reduce noise transfer to the interior cabin
- Provide smoother passenger ride
- Prevent frame collapse
- Eliminate the need for periodic tightening of body bolts.

PROPANE-POWERED

« WITH OVER 30,000 BUSES BUILT TO DATE, WE ARE COMMITTED TO OFFERING THE HIGHEST LEVEL OF QUALITY IN OUR PRODUCTS. »»

MAXIMUM VISIBILITY

- Fully-glassed entrance door and unobstructed "More-View" window
- Standard 32" electric double-opening door

SUPERIOR INSULATION AND QUIETNESS

- Fiberglass insulation throughout
- Insulated hat shaped roof bows
- Noise transfer reduced inside passenger compartment
- Prevent condensation and corrosion

INCREASED PASSENGER COMFORT

Extra Wide Body:

- Creates wider aisle for increased safety
- Offers more room for passengers

BETTER PROTECTION AGAINST THE ELEMENTS

Completely sealed floor:

- Ensures that all exterior elements, including dust, moisture and noise, remain outside the passenger compartment
- Use of high quality exterior grade plywood
- Screwed on galvanized steel or aluminum subfloor
- Sound deadening undercoating is applied over and underneath the metal subfloor prior to plywood installation

ALSO AVAILABLE:

SS-Series and DS-Series: All our commercial buses are also available with special needs options. A variety of floor plans is offered to meet your needs.
